Hello, everyone. Welcome to the August 2006 edition of the Radio HF Internet Newsletter. I welcome any new subscribers to this publication. We have a selection of links to web sites which I hope you will find informative and entertaining.

The recently distributed special edition of the Newsletter dealing with the Israel/Lebanon conflict generated a lot of response from subscribers. Thank you to everyone for your comments. Hopefully some of the sites were able to provide a better understanding of just what is going on right now in the Middle East. I feel that some of the sites may have provided a different perspective on the situation than what we are used to seeing or hearing in the mainstream media. Let's hope that a peaceful solution may be obtained quickly.

Now, on we go with this month's collection of web sites. Our Monthly Special Zone for August includes sites dealing with National Aviation Day/Week, International Youth Day, the anniversary of the bombing of Hiroshima, and Elvis Presley Week!

THE MONTHLY SURVEY

LAST MONTH'S SURVEY

Last month's question was: Is there one special event that takes place somewhere in the world that you would like to attend at least once in your lifetime? If so, what and where would it be?

Only 7 responses to the survey, with some rather unique events chosen, namely one vote each for the following:

Port Fairey/Port Nelson, Australia Folk Festival
Oshkosh Aerial Festival
An eclipse of the Sun
Le Bourget, France Airshow
Masters Golf Tournament
Tourist Trophy Motorcycle Races on the Isle of Man
Centre Court at a Wimbledon Final (my choice)

THIS MONTH'S SURVEY

Here is a rather strange one. I heard this question being asked on a recent radio talk show. First off, let's hope, of course, that you are never faced with this challenge and that this is only a hypothetical question. Your home catches on fire and, other than yourself, family members, pets, etc., you have a chance to grab only one thing from your home and take it to safety with you. What would that item be?

Please send your response, by e-mail, to hfnewsletter@...

THE COMMENTS ZONE

JULIE HUGHES, St-Hyacinthe, Quebec: It was great that you included a link for the Special Olympics and mentioned that they will be held next week in Brandon, Manitoba. My son, David will participate. Thank you very much.

BRIAN JEFFREY, Carp, Ontario: (Regarding the Israel/Lebanon special edition) Thank you for taking the time to do this. Most appreciated.

ROBERT CHERRY, Gatineau, Quebec: (Regarding the Israel/Lebanon special edition) Many thanks for this, Sheldon.

ERIC WOLFE, Lebanon, Pennsylvania: (Regarding the Israel/Lebanon special edition) Great piece sent. I forwarded it to a bunch of people around the world.

BRUCE WEISS, Richmond, Virginia: (Regarding the Israel/Lebanon special edition) Thank you for putting out this special edition of the Newsletter. I admit to taking the Israeli side of the current crisis. I appreciate your forwarding these web sites to your subscribers. Thank you again.

JEAN-PIERRE BELISLE, Montreal, Quebec: Though I go through your Newsletters (almost) every time I receive them, I never gave you any effective feedback on your great job. I guess I just belong to those silent readers who highly appreciate your involvement in the hobby. A simple 'Thank You'.

FRED KIRBY, Tiverton, Ontario: Thanks for the timely websites. I forwarded them to my local Amnesty International Group and to a young lady who wants to get her ham license.

GARY THORBURN, Maynard, Massachusetts: Great collection of links, Sheldon. Thanks for putting this (special edition) together.

THE CONTRIBUTORS ZONE

It's not getting any better, folks! Besides my own submissions, and Yahoo items, only two subscribers again this month came through with contributions. Please consider sharing some of your favourite web sites with us. Thanks to Al and Elmer this time around.

RADIO TOOLBOX

http://www.radiotoolbox.com/

VIA Sheldon Harvey, Greenfield Park, Quebec

Radio Toolbox is a research and development website for online streaming media. We create and evolve technologies you may already be familiar with and maybe some you may not be so familiar with. The intention is to make managing and creating content based website and streams as easy as possible and with the highest impact. You will find links on the site to many on-line radio stations.

RADIO ELECTRONICS

http://www.radio-electronics.com/index.php

VIA Sheldon Harvey, Greenfield Park, Quebec

This site bills itself as the resource centre for the radio and electronics design engineer. There are sections on antennas, circuits, components, radio broadcast technology, radio signal propagation, and much more.

MARITIME RADIO HISTORICAL SOCIETY

http://www.radiomarine.org/

VIA Sheldon Harvey, Greenfield Park, Quebec

The Maritime Radio Historical Society is a small group of dedicated individuals who share the goal of documenting, preserving and restoring the remaining artefacts of maritime radio history.

MORSE CODE PRACTICE PAGE

http://www.aa9pw.com/radio/morse.html

VIA Sheldon Harvey, Greenfield Park, Quebec

This page is designed to help you learn and practice Morse code. There are also other pages which cover the Morse code itself and a few hints on how to approach learning the code. This page will generate Morse code consisting of groups of random characters and there are 25 characters per group (5 sets of 5 characters). You can pick which group of characters you wish to be tested on: the alphabet, the numbers or punctuation (including prosigns) or all three. The computer creates an .au audio file and sends that to your browser so your browser (or helper application) needs to be capable of handling these files. You will also need a sound card or similar to be able to hear the Morse.

ARRL CLASSIC PUBLICATIONS

http://www.n4mw.com/ARRL/arrlpubs.htm

VIA Sheldon Harvey, Greenfield Park, Quebec and the ARRL Surfin' feature

The ARRL Classic Publications Web site (not affiliated with the ARRL). It is the work product of Dave Meier, N4MW, and provides a nostalgic trip down the rows of the ARRL library. On his Web site, Dave has collected cover shots of many of the 6×9 inch format books that comprised the radio amateur's library. He also provides a link to the list of the 306 titles that comprise the "numbered ARRL publications."

AMATEUR RADIO IN POPULAR CULTURE

http://en.wikipedia.org/wiki/Amateur_radio_in_popular_culture

VIA Sheldon Harvey, Greenfield Park, Quebec and the ARRL Surfin' feature

From Wikipedia, the free on-line encyclopedia, we discover that amateur radio has been used many times as a plot device in films,

television, and novels. Here is an ever-lengthening list of amateur radio references.

THE ORIGINAL FAMOUS HAMS & EX-HAMS LIST

http://users.tellurian.com/gjurrens/famous_hams.html

VIA Sheldon Harvey, Greenfield Park, Quebec and the ARRL Surfin' feature

This page makes no claims as to the absolute accuracy of this information, gleaned from many sources, including lots of apocryphal hearsay! However, every effort has been made, through exhaustive research and direct communication with many of the people on this list and their relatives and associates, to maintain as accurate a list as possible. You'll find lots of interesting links here as well.

THE RED STAR RADIO SITE

http://oldradio.onego.ru/index.html

VIA Sheldon Harvey, Greenfield Park, Quebec and the ARRL Surfin' feature

This is an excellent page focusing on vintage Russian radio equipment. Vitaly Brousnikin is the man behind the site. It is his collection that is on display and besides radios, includes old records, record players and tape recorders. There is also a collection of schematics, manuals, and articles for your perusal.

THE STEREO CONSOLE WEB SITE

http://pjeantaud.free.fr/stereo_console/index.html

VIA Sheldon Harvey, Greenfield Park, Quebec

This page, based in France, looks back at the stereo console units of the 1960's.

WACKY JAPANESE DX RECORDINGS

http://10mam.jp/bcl.htm

VIA Al Quaglieri, Albany, New York

Note that the text here is in Japanese, but there are a bunch of common interval signal recordings taken off a record, but at the end (#23) is a special treat...the guy does his vocal impressions of several of his favorite SWBC stations ...worth the trouble just to hear his rendering of the Radio Australia kookaburra. Enjoy!

NEW FROM ICOM
THE IC-91A and IC-91AD DUAL BAND RADIOS

The IC-91A & IC-91AD have dualwatch receiver capability, allowing you to receive two bands simultaneously (including same band). By pushing and holding the [Main/Dual] button, you can easily turn dualwatch on and off, while a press of the button allows you to toggle the active VFO channels. These units have 5 watts of output with the supplied lithium-ion battery pack, as well as a built-in CTCSS/DTCS encoder and decoder.

The IC-91AD* provides D-STAR DV mode operation with an AMBE codec. 950 bps data can be sent simultaneously with the digital voice transmission. When you receive an FM mode (or other mode) signal while operating in DV mode, the automatic DV detection function changes the operating mode to the one detected.

These two units are now available. For complete details, specifications and available accessories, please see the product brochure at:

http://www.icomamerica.com/brochures/91AD.pdf

Please contact Radio HF for details on pricing and availability of these and other fine Icom products.
